 Tbilisi, Georgia

EDUCATION

Belarusian State University
Radiophysics
2013-2017

SPOKEN LANGUAGES LEVELS

Russian: Native

English: B1-B2

PROFILE

Versatile DevOps Engineer with 7+ years of experience spanning System Administration, Cloud Engineering, and Product DevOps. Proven track record in providing maintenance and support for high-availability environments, evolving from legacy Windows/Linux systems to modern multi-cluster Kubernetes architectures. Core expertise lies in architecture and infrastructure design, Kubernetes, AWS, and building resilient platforms. Expert in developing CI/CD according to GitOps concepts (ArgoCD), automating deployments to bare-metal, Kubernetes, and AWS, as well as administrative processes, and implementing proactive monitoring and observability. Experienced in designing Disaster Recovery strategies (AWS EKS) and troubleshooting environments down to the code level (Go, Python). Strong focus on ensuring system security, fixing security threats, and advising development teams on architectural solutions.

EXPERIENCE

Total experience: 7 years 7 months

TradingView
Jul. 2024 - Jun. 2026
Tbilisi, Georgia

Product DevOps Engineer

Migration of product architecture (Go stack) to Kubernetes, developing Helm charts and k8s-native Docker images, implementing GitOps concepts via ArgoCD, executing a Disaster Recovery strategy using Argo Workflows and AWS EKS, modernizing and maintaining Jenkins and GitLab CI pipelines for hybrid deployment and automated testing, introducing pre-commit hooks and linters for code quality control, migrating and orchestrating Kafka in K8s via Strimzi Operator, maintaining data streaming pipelines (Debezium, MirrorMaker), optimizing deployments and reducing cluster resource consumption, troubleshooting production incidents at both infrastructure and code levels (including Go SIGSEGV fixes), migrating monitoring from Zabbix to Prometheus with false-positive alert suppression, configuring log collection via Vector, testing networking solutions (MetalLB, Cilium), consulting adjacent development teams on K8s migration, conducting architectural reviews, and providing ready-to-use infrastructure templates.

Used frameworks and technologies:

Kubernetes (on-prem, AWS EKS), Helm, ArgoCD, Argo Workflows, Docker, Jenkins, GitLab CI, pre-commit, Kafka (Strimzi), Debezium, MirrorMaker, PostgreSQL, ZooKeeper, etcd, Prometheus, Thanos, Alertmanager, Vector, Zabbix, Grafana, Puppet, Hier, MetalLB, Cilium, AWS Route53, Python, Bash, Go.

Elinext
Sep. 2022 - Jun. 2024
Tbilisi, Georgia

DevOps Engineer

Migration to GCP, developing CI/CD pipelines according GitOps concept, maintenance, developing python scripts for automation, troubleshooting of environment, docker, pipeline issues, consulting development teams on implementation of CI/CD pipelines, developing and implementing Ansible playbooks, security consulting, creation and mentoring cloud technology training.

Used frameworks and technologies:

AWS, GCP, Azure, Python, Docker, Docker-Compose, K8s, Ansible, Jenkins, Gitlab CI/CD, GitHub Actions

Forbase
Nov. 2018 - Nov. 2021
Minsk, Belarus

System Administrator

Organization of backups: sites, IIS settings, various directories, configurations and virtual machine data. Up-to-date system and firmware support, high availability support. Monitoring and notification of: system, equipment, availability, integrity and safety of backups. System configuration, services and roles. Prevention of critical events. Troubleshooting. Infrastructure planning and implementation. Automation of administrative processes.

Used frameworks and technologies:

Windows Server, MS SQL, AWS (EC2, S3), Dell PowerEdge/PowerVault, Synology NAS, Ispswitch WhatsUp Gold

Forbase
Feb. 2017 - Nov. 2017
Minsk, Belarus

System Administrator

Internship.

Used frameworks and technologies:

Windows Server, MS SQL, Synology NAS, Ispswitch WhatsUp Gold

PROJECTS

TradingView
Jul. 2024 - Jun. 2026

TradingView

Platform for traders and investors.

Responsibilities:

Support and development of company product services.

Elinext
Feb. 2023 - Jun. 2024

Security consult

Consulting security solutions.

Responsibilities:

Consulting and configuring security solutions.

Elinext
Oct. 2023 - Jun. 2024

Elinext Cloud Training

Internal cloud technology training

Responsibilities:

Creating and mentoring AWS cloud technology training.

Elinext Jun. 2023 - Oct. 2023	Sat.io Satellite managing project. Responsibilities: Implementing CI/CD pipelines, advising development teams on the implementation of CI/CD pipelines, resolving issues of containerization.
Elinext Mar. 2023 - Jun. 2023	Elinext Gateway Internal corporate network. Responsibilities: Developing and implementing Ansible playbooks for automated server configuration.
Elinext Sep. 2022 - Feb. 2023	Broadcom DX Monitoring and analysis application. Responsibilities: Migration to GCP, developing CI/CD, maintenance, developing python scripts for automation.
Forbase Oct. 2018 - Nov. 2021	Marketing G2 Marketing solution for social media
Forbase Nov. 2018 - Nov. 2021	Safetypay Solution for payment methods
Forbase Feb. 2017 - Nov. 2017	Marketing G2 Marketing solution for social media

SKILLS

AWS	EC2 / Route 53 / S3 / VPC / Beanstalk / ECS / ECR / EKS / RDS / DevTools / SNS / Lambda / CloudFormation / CloudWatch
GCP	Compute / GKE / Storage
CONTAINERIZATION & ORCHESTRATION	Kubernetes / Helm / Docker / Docker-Compose / Swarm / MetalLB / Cilium
DEVOPS & GITOPS TOOLS	GitLab CI/CD / GitHub Actions / Jenkins / ArgoCD / Argo Workflows / Ansible / Puppet / Hiera / Terraform / Git
DATA, BROKERS & STREAMING	Kafka (Strimzi) / Debezium / MirrorMaker / PostgreSQL / ZooKeeper / etcd
MONITORING, LOGGING & OBSERVABILITY	Prometheus / Thanos / Alertmanager / Vector / Grafana / Zabbix / Ipswich WhatsUp Gold
SCRIPTING & LANGUAGES	Python / Bash / Go / PowerShell
LINUX SERVER & NETWORKING	CentOS / RHEL / Fedora / Debian / Ubuntu / Networking (iptables, L2TP, WireGuard, etc.)
WINDOWS SERVER	AD DC / GPO / DNS / DHCP / IIS / Hyper-V / DFS / Failover cluster / WSUS
VIRTUALIZATION	Hyper-V / VMware (vSphere)
STORAGE & HARDWARE	Synology NAS / Dell PowerEdge / Dell PowerVault / DELL (OME, OMSA, iDRAC)
OTHER	Network Security

PERSONALITY

Experimenting with new technologies and frameworks, continuous learning, resolving the most difficult problems, choosing the most appropriate technologies, flexible and organized.

HOBBIES

Programming, radio electronics, CTF.
